

SHAWN ANOTIDAI SHE RIMAI

BSc. (Hons) Computer Science Co-op Student | Brock University

Phone: (705) 465-3313 | Address: 210-574 King Street, Welland, ON | Email: ll25bm@brocku.ca

PROFESSIONAL SUMMARY

Aspiring software engineer with strong problem-solving abilities and a solid foundation in full-stack development principles. Passionate about leveraging technology to solve real-world problems and committed to rigorous continuous learning and scalable software architecture.

EDUCATION

Brock University

September 2025 – June 2029

Bachelor of Science (Honours), Computer Science Co-op

- **Relevant Coursework:** Data Structures and Algorithms

TECHNICAL SKILLS

- **Programming Languages:** Java, HTML/CSS, Python, JavaScript, TypeScript, SQL
- **Frameworks & Libraries:** React, Next.js, Spring Boot, Node.js, Tailwind CSS, Shadcn UI, Drizzle ORM
- **Developer Tools & Databases:** Git, GitHub, PostgreSQL, Neon Serverless Postgres, npm, Microsoft Office
- **Soft Skills:** Team Collaboration, Problem Solving, Time Management, Adaptability
- **Languages:** English (Fluent), Shona (Fluent)

TECHNICAL PROJECTS

Cash Canopy – Full-Stack Personal Finance Web Application

Technologies: Next.js, TypeScript, Tailwind CSS, Shadcn UI, Drizzle ORM, Neon PostgreSQL, Better Auth, Resend API

- Architected and deployed a responsive personal finance dashboard enabling users to track expenses, set monthly budgets, and analyze spending patterns.
- Built server-rendered pages and API endpoints with Next.js App Router and TypeScript, ensuring end-to-end type safety across the application stack.
- Implemented secure user authentication and transactional email workflows using Better Auth and Resend API.
- Designed modular PostgreSQL schemas and optimized relational queries utilizing Drizzle ORM integrated with Neon serverless database.

Canopy UI (@marv3l/canopy-ui) – Custom React UI Component Library & CLI

Technologies: React, TypeScript, npm, Node.js, Tailwind CSS

- Developed and published an open-source, highly customizable React toast notification component library to the npm registry.
- Built an accompanying Command Line Interface (CLI) tool enabling developers to quickly scaffold and install UI components into existing React projects.
- Authored comprehensive, developer-focused documentation with interactive usage demos to streamline community adoption.

CERTIFICATIONS

Complete Software Engineering Course with Python – Udemy

September 2024

- **Core Programming & Logic:** Mastered Python syntax, control flow, modular functions, and built-in data structures (lists, dictionaries, sets, tuples).
- **Object-Oriented Programming (OOP):** Applied core OOP principles—classes, inheritance, encapsulation, and polymorphism—to structure modular, reusable code.

- **Software Engineering Fundamentals:** Implemented robust error and exception handling, file I/O operations, and systematic debugging workflows.
- **Practical Problem Solving:** Engineered hands-on Python scripts and small-scale projects following clean code principles and structured development workflows.
